RELEVANT EXPERIENCE

General Assembly — *Software Engineering Immersive*

Los Angeles, CA | August 2020 - November 2020

- Gained experience using various frontend and backend programming languages and methodologies
- Developed a diverse portfolio of individual and collaborative in-class projects, all thoughtfully crafted to help solve a specific problem

Great ShakeOut — *Junior Frontend Developer/Translator*

Los Angeles, CA | March 2012 - March 2016

- Built and maintained HTML content of 25+ Great ShakeOut regional websites, annually visited by millions of people worldwide
- Handled large amounts of data to accurately track 60+ million annual earthquake drill registrations and participation statistics
- Created and translated educational and promotional materials to increase awareness of annual earthquake preparedness drills every year

PROJECTS

Foodbook — *Recipe Collection App*

- Deployed MERN stack application that incorporates an external API to serve millions of recipes a user can save and organize however they like

Wayfarer — *Travel Blog App*

- Leveraged Python and Django with my team to deploy an interactive travel blog app where users can read and share travel tips and stories

Toolodex — *Productivity App*

- Collaborated to deploy a full CRUD, productivity enhancement app using Express, MongoDB, Mongoose and Node.js

Song Quiz — *Music Trivia Game*

- Designed, created and deployed an interactive game incorporating HTML, Javascript, jQuery
